

# ANNUAL REPORT

OF THE

TRUSTEES AND OTHER OFFICERS

OF THE

VILLAGE OF RUTLAND,

1869.

---

RUTLAND :  
COURIER BOOK AND JOB OFFICE,  
1869.

## TRUSTEES' REPORT.

---

*To the Citizens of the Village of Rutland:*

In presenting our annual report of the transactions of the village for the year that has passed, we have endeavored herewith, to give, under their respective heads, the receipts and expenditures, and as far as possible the present actual condition of the village, together with such recommendations as in our judgment seem best.

The past year has been one of unprecedented prosperity, as it has one of fearful destruction of property by fire, and saved only from total annihilation by the last aroused efforts of its people.

The expenditures of the village have been large, a large portion of which have been for the better condition of the Fire Department, and for the expenses necessary for the detection and conviction of the incendiaries.

The Fire Department is in good condition. The new steamer "Killington" was purchased pursuant to vote of last annual meeting.

We would suggest the propriety of disposing of the two hand engines, and with the proceeds purchase a steamer, to be kept where No. 1 now is; also, to purchase sufficient land for the erection of a house for the present steamer at such time as the village may deem best.

It would be economy for the village to own a pair of serviceable horses for the use of the steamer, and when not thus employed to be used upon the highways in repairing the streets and walks and removing obstructions therefrom.

The highway tax seems to be more than ample for the future construction of the streets and walks, and with proper outlays we may at no distant day have permanent and beautiful thoroughfares.

Our finances seem to require attention. Our taxes are large, and must necessarily be in all flourishing villages, but they should be "tempered with mercy," and all departments of the village should be managed with strict regard to economy in all purchases and expenditures.

The orders of the village should have the purchasing power of greenbacks, and should be to the holder their equivalent, and always find a home in the treasury instead of being a wandering comet as they now are. Money sufficient is voted for this purpose, but the treasury is empty.

A more thorough and efficient collection of the taxes would remedy this growing evil.

We would earnestly recommend that some plan be devised whereby our taxes can be more promptly collected, thus saving to the village large sums of money in the aggregate, and a better and more economical administration of all its affairs.

The amount of unpaid taxes in the hands of the collector for 1867 and 1868 is \$3,675 92, of which \$3,000 or more should be collected.

One or more reservoirs should be built each year until the village is amply supplied. The cost of each of the capacity of those most recently built is about \$500.

## CHIEF ENGINEER'S REPORT.

*To the Voters of the Village of Rutland :*

In obedience to the village by-laws prescribing the duties of the Chief Engineer, I herewith present the Report of the Fire Department for the past year, giving a list of fires and alarms, with the loss and insurance as far as could be ascertained.

16. June 10, 1868, fire was discovered in building known as the Old Bakery on Washington street, owned by A. F. Davis, which was entirely destroyed, together with dwelling-house and barns adjoining. Loss \$8,000 ; insured for \$6,000. Origin of fire unknown.

17. June 20, 1868, at 2 A. M., an alarm caused by fire being discovered in barn owned and occupied by Gov. Page on Main street, which was entirely destroyed. By the exertions of the firemen, aided by citizens, the contents were mostly saved. Loss — ; insured for \$3,000. Incendiary.

18. July 1, 1868, a fire broke out in Landon & Bates' store on Merchants' Row, destroying all the buildings from Cramton's Block to the Herald Building. Buildings owned by D. Verder, L. & A. C. Bates and G. M. Baker. Loss \$75,000 ; insured for \$50,000. Origin of fire unknown.

19. July 22 at 7 P. M., a fire was discovered in blacksmith shop connected with the machine shop of the R. & B. R. R. Co. Before it could be extinguished it communicated to the roof of the main building, running nearly its entire

length. Through the almost superhuman efforts of the firemen and citizens, with the assistance of the steam pump at the shop, the fire was extinguished. Loss \$8,000; origin of fire unknown: fully insured.

Aug. 5, 1868, at 6 A. M., a fire broke out in building on Furnace street, owned by Rutland Foundry and Machine Shop Co., and occupied by J. W. King as a planing mill and sash and blind factory. The firemen responded to the alarm promptly, and saved the main building in a damaged condition. The planing mill and tools were destroyed. Cause of fire, shavings left near furnace in boiler room. Loss on building, stock and tools, \$6,000. Insured.

Aug. 10, an alarm caused by the burning of a barn on Green street, owned by Fred Gee. Loss trifling; cause unknown.

Sept. 25, an alarm caused by the bursting of a kerosene lamp in room occupied by J. A. Commette in C. F. Richardson's building, on Center street. Put out without the aid of the department.

Sept. 19, 1868, an alarm caused by the burning of a house on Green street, owned by Thomas Winters. Loss \$500; insured for \$200; origin of fire unknown.

Oct. 6, 1858, at 11 P. M., a fire was discovered in building on Main street, owned by R. R. Thrall. Before the alarm was given the fire had made such headway that the occupants of the building had barely time to escape. Building entirely destroyed; loss \$3,000; no insurance. Union building was several times on fire, yet through the efforts of the firemen it was saved without much damage. Cause of fire unknown.

Nov. 14, 1868, at 10 P. M., a fire was discovered in barn on West street, owned by Nelson Brown. The barn, carriage-house and wood-shed were destroyed. The dwelling house was in a badly-damaged condition. Loss \$3,000; insured for \$2,500. The barn owned by Edwin Edgerton, Esq., west of Mr. Brown's, was consumed with its contents, consisting of hay, wood and lumber. Loss \$700; insured for \$300: origin of fire unknown.

Dec. 12, 1868, at 9 P. M., an alarm caused by fire in the barn connected with Union House. Put out without the aid of the Fire Department. Damage trifling; origin unknown.

Another alarm was given at 10.45 P. M., which proved to proceed from Main street, where two fires were in progress; one on the east side of street in barn owned by Chas. Olmstead, which was destroyed: also, the barn and ell part of dwelling-house, owned by Harry Adams, on west side of

the street. The barn and ell part of house owned by J. J. R. Randall, with the Town Hall, the lower story belonging to the Huntoon estate. The hall and upper part of the building, owned by the town of Rutland, were entirely destroyed. Loss \$15,000; fully insured, except the part owned by the town, on which there was no insurance. Incendiary.

27 Jan. 23, 1869, at 1 A. M., an alarm by fire being discovered in Central House, which was subdued by the united efforts of the occupants. Damage trifling; cause of fire unknown.

28 Jan. 24, 1869, at 11 P. M., the dwelling-house owned by Peter Fagan, caught fire. Owing to the absence of water in the vicinity it was destroyed. Loss \$1,600; insured for \$1,300.

Feb. 2, at 7 P. M., a fire broke out in house on Main street, owned by G. L. Mussey. Through the exertions of the firemen, the building was saved in a damaged condition. Loss \$1,500; insured for \$1,200; caused by defect in chimney.

Your apparatus for putting out fires consists of two hand engines, one first-class steam fire engine with hose carriage, one hook and ladder truck, with hooks, ladders, &c., necessary for the efficient working of the company, all of which is in complete order. All of the companies are well manned, and commanded by officers of well-known ability in managing their apparatus at fires. You have 1,200 feet of patent combination hose in complete order, and about 800 feet of leather hose, old but may be used to some extent on hand engines.

Although we have had a large increase of fires over former years, making the duties of the firemen, in some cases, severe. They have responded promptly to every alarm, and it is a pleasure in complimenting the members of the department for their good order, and for the prompt manner in which they have obeyed the orders of the engineers.

I desire to express the thanks of the Fire Department to the Trustees for the commendable zeal exhibited in ferretting out and placing at the bar of justice the incendiaries who have been prowling in our midst; also for the prompt manner in which they have furnished what seemed necessary under the circumstances for the protection of property against fire.

Respectfully submitted,

N. F. PAGE, *Chief Engineer.*
